

# GENERAL FACTSHEET

# HISTORY

## T-GRADIN'S HISTORY

T-Gradin support customers with Project Management services and is established in the year 2000 in the Netherlands. Recognizing the increasing need for independent professional Project Management expertise, the company started out as a support group to plant owners and plant operators. Over the years T-Gradin has grown to a full scope support organization capable of execution almost any project in any industry. Key to the success is control over expertise and experience and the strong wish to support any organization in executing their projects.

Today, T-Gradin's approach in projects is well-known and proven. With a significant track record in various industries and a client list that includes the "Majors" in oil and chemicals, traders, food industries, bulk storage and handling and many others.

# DISCIPLINES

## OUR DISCIPLINES

The ultimate chances for a project to be complete successfully is almost exclusively determined by the quality of the Project Management function. The Project Management function is being determined by a hand full of key players in any project organization. These key players combine the disciplines and functionality that are required to effectively control a project.

T-Gradin has full focus on these disciplines, such as :

- Planning
- Estimating
- Procurement
- Subcontracting
- Cost Engineering
- Process Consultancy
- Project Management
- Engineering Management
- Construction Management

# OUR APPROACH

T-Gradin's approach in PROJECT PREPARATION AND EXECUTION has developed to be well-known and proven. With a significant track record in various industries and a client list that includes the "Majors" in oil and chemicals, energy, bulk storage and many others, T-Gradin is prepared to bring your investment project to success.

T-Gradin is built around expertise and experience, independence and focus.

## EXPERTISE AND EXPERIENCE

T-Gradin provides access to world class Project Management professionals, developed ways of working and Project Management expertise – the ultimate ingredients to deliver top class projects.

## INDEPENDENCE

T-Gradin is fully independent, there are no ties with engineering firms, construction contractors, vendors or any other significant accounts on your project. Full independence creates the potential to really align project execution with your objectives.

## FOCUS

Being independent, T-Gradin has the capability to look at your project as you would do yourself. We may work within your team, look with your eyes, control your interests, assets and values.

# SERVICES

## APPRAISE AND PLAN

### OPTIMIZE YOUR PROJECT PLAN

Utilize top level expertise to cater for high-end strategic project plans. From business opportunity to basic design and plans.

Utilize superb experience in the field of strategic planning your project. Many too often projects turn sour only because a proper planning, at the front end is, missing. T-Gradin is well equipped with expertise and experience to prepare with you the “best in class” strategic plan for any investment project. The plan will provide any stake holder with the confidence that this project will be successful. A professional strategic plan is the first step in successful project completion.

## PROJECT RESULT

### LEAVE PROJECT EXECUTION TO THE ULTIMATE EXPERTS

Let experience and expertise lead your project to success, rather than anything else. From Engineering, Construction to successful Start-up.

## STAFFING SOLUTIONS

### IMPROVE YOUR CHANCES TO SUCCESSFUL COMPLETION

Use top level competent staff, well fit, into your project organization. From top to bottom functionalities of your Project Management team. Our Staffing Solutions professionals flow easily into your organization and will perform team play as a second nature. Staffing Solutions will provide any project managerial functionality and a lot more. Basically any and all people that you need to make your project a success. Here are just a few examples of our capabilities:

- Project Director
- Project Manager
- Project Engineer
- Construction Manager
- Construction Supervisor
- Contracts Manager
- Procurement Manager
- Buyer / expediter
- Engineering Manager
- Planner
- Cost Controller
- Work Preparator
- Estimator
- SHEQ coordinator

## CONTRACTING

### PURCHASE GUARANTEED PROJECT RESULTS

Professional Contracting and Purchase guaranteed positive project results. The risk of project execution is for the party that is best capable of handling the risk.

If you are looking for a minimum involvement of own staff, consider T-Gradin Contracting to support you with this extremely important functionality. If you are also looking for a “next to zero” risk profile, consider T-Gradin Contracting to take all that risk. Contracting is the ultimate party to take any high performance project because Contracting has the right professional expertise, experience, network and relations with people and companies required to do this job just right. With Contracting you will get the best the industry can deliver with effective and efficient co-operations in fixed price and/or LSTK contractual frameworks.
